# PROTEUS WORKSHOP

## GICLEE SERVICES PRICING

### Limited Edition Printmaking

Proteus Workshop Giclee Services Pricing is composed of two parts, *Giclee Image Capture* and *Giclee Printmaking*.

Proteus Workshop uses Sinar view camera and BetterLight digital scanning back technologies for filmless artwork *Giclee Image Capture* at the highest possible resolution and color accuracy. This is the same technology employed by world-class museums to archive their most valuable works. The *Giclee Image Capture* process includes an 8.5 x 11 inch proof for customer review and approval.

For *Giclee Printmaking*, Proteus Workshop uses the latest pigmented inksets for maximum image permanence and fidelity. *Giclee* prints are usually printed on Hahnemuhle 100% rag watercolor papers, available in several textures and weights. *Giclee* printmaking may also be done on artists' canvas or other media. All prints are made on-demand.

List pricing for both *Giclee Image Capture* and *Giclee Printmaking* are included here. *Discounts are available for quantity orders and during special promotional periods.*

Our fully calibrated and profiled lighting setup, scanning backs, workstations and printers provide an integrated workflow, assuring our customers of the highest quality results.
